

Ways & Means minutes 2/1/17

Ways & Means met for the following:

1. Finalize the 2107/2018 budget proposal for presentation to the full council. Recommended budget has general fund levy of \$15.917, down slightly from the \$16.1493 of prior year, and includes \$236k of capital improvements. The proposed budget does not include an additional police officer.
2. The city enterprise funds have budgeted for a city engineer. It is the recommendation of Ways & Means to approve the request. The upcoming capital projects engineering costs vs the cost of an in house engineer make this new hire feasible.
3. LOST applications were reviewed and \$112,500 was awarded to various applicants. It was noted by the committee that some applications did not conform to the requirements contained in the application.

Andy Hallman from the Fairfield Ledger was present for part of the meeting.
